RESEARCH EXPERIENCE

Costas Arkolakis – Yale University, Economics Department

New Haven, CT

Research Assistant

01/2025-Present

- Reviewed and provided detailed feedback on four forthcoming papers by Professor Arkolakis, covering topics such as endogenous production networks, geospatial machine learning, multivariate Pareto distributions with heavy tails, and welfare gains from EV charging infrastructure.
- Preparing to develop GIS code for a forthcoming paper on electric vehicle charging stations in Connecticut.

Geoffrey Ducanes – Ateneo de Manila University, Economics Department

Quezon City, Philippines

Personal Research Assistant

06/2023-07/2024

- Conducted eight literature reviews on labor, development, and international economics, from the impact of free/subsidized tuition on labor market outcomes to the impact of inflation targeting on income inequality.
- Restructured data sets from the Social Weather Survey database and both the Labor Force Surveys and Family Income and Expenditure Surveys from the Philippine Statistics Authority, to facilitate time-series econometric analysis.
- Compiled the history and available data on the indigenous Sama-Badjao population in the Philippines, contributing to a chapter on the livelihood of indigenous communities worldwide in an upcoming book by the Asian Development Bank.

Alvin Ang – Ateneo Center for Economic Research and Development (ACERD)

Quezon City, Philippines

Research Assistant

09/2022-06/2024

- Consolidated data, literature, and research on the Philippines' education, health, power, agricultural, environmental, and political sectors for USAID Philippines' Mid-Course StockTaking (MCST) of its Country Development Cooperation Strategy (CDCS) in light of the new presidential administration.
- Maintained the extensive ACERD macroeconomic database about the Philippine economy (markets, prices, trade flows, etc.)
- Constructed over ten databases on ASEAN's macroeconomic indicators for each country as well as the historical market capitalization and revenues of all the companies in the Philippine Stock Exchange to supplement ACERD's economic briefings.

POLICY EXPERIENCE

Department of Finance's Office of the Chief Economist (DOF-OCE)

Manila City, Philippines

Research Intern

08/2023-09/2023

- Updated OCE's database which compiles key macroeconomic indicators and data on all sectors of the Philippine economy from official state sources and the Bloomberg Terminal.
- Contributed to the monthly economic briefer “The Month That Was” which is made to update the Secretary of Finance on the overall state of the Philippine economy with special focus on the contributing factors to inflation for August 2023.
- Reviewed literature on the Phillips Curve, Taylor Rule, and Velocity of Money in the Philippine context with the aim of informing future policy decisions.

Department of Finance's Privatization and Corporate Affairs Group (DOF-PCAG)

Manila City, Philippines

Policy Analysis Intern

01/2023-07/2023

- Received training on the regulatory and economic frameworks behind public-private partnerships and state-owned enterprises with special attention to risk allocation and balancing the profit-efficiency issue in public goods.
- Assisted PPP Project evaluations like the Ninoy Aquino International Airport rehabilitation, University of the Philippines - Philippine General Hospital Cancer Center, and North Luzon Expressway extension.
- Collaborated with other interns in the creation of briefers, literature reviews, position papers, and presentations to dissect the Philippines' state of electricity, fuel, state-owned enterprises, and toll-setting regimes.

SKILLS

- Stata, R, Python, Julia, LaTeX, Microsoft Office, Data Analysis, Literature Review
